The new site-specific installation, *City, 2017*, by the Brooklyn-based artist, Rob Fischer, is a glorious combination of his work in every medium. Known for his glass houses/boats and glass renderings of everyday objects like luggage and backpacks, the colorful, boxed-glass installation seems quite fitting set in front of the Lever House glass skyscraper on Park Avenue at 54th Street.

The multifaceted installation combines glass, steel, screen print ink, acrylic and latex paint, cast aluminum, furniture, tree stumps, moss, water, construction adhesive, and silicone.

The new installation, Rob Fischer 'City, 2017' will be on view through November 15, 2017. This installation is presented by The Fund for Park Avenue, NYC Parks, and Derek Eller Gallery.
